PROFILE SUMMARY

Results-driven Full Stack Developer with 3+ years of freelance experience building and delivering production-grade web applications across digital marketing, healthcare, and education sectors. Proficient in the MERN Stack, Next.js, and custom WordPress development (themes & plugins). Adept at managing complete project lifecycles — from gathering client requirements and architecture planning to deployment and post-launch support. Known for delivering clean, scalable code on time.

EXPERIENCE

Freelance Full Stack Developer

Jan 2023 – Present

Self-Employed | Remote / Gangtok, Sikkim

- Delivered 5+ end-to-end web projects for clients across digital marketing, dental, and education sectors.
- Built custom WordPress themes and plugins from scratch using PHP, HTML/CSS, and JavaScript.
- Developed full-stack applications using Next.js, Supabase, Prisma, and PostgreSQL.
- Handled complete project lifecycles: requirements gathering, system design, development, testing, and deployment.
- Integrated third-party APIs, CMS platforms, and automation tools to meet diverse client needs.

QA Tester & SEO Associate

July 2024 – Present

[VSDL IT Solution](#) | [Leander, TX \(Remote\)](#)

- Contributed to two major projects: CDO (Computer Degrees Online) and FOC (Find Our College).
- Collected and organized comprehensive data on US colleges to support content development and outreach strategies.
- Built and managed high-quality backlinks to improve website visibility and search engine rankings.
- Collaborated with the digital marketing team to optimize landing pages and improve user engagement.

MERN Stack Web Development Intern

Aug 2024 – Sep 2024

[EazyBytes.com](#) | Remote

- Designed and developed dynamic, responsive web applications using the MERN Stack (MongoDB, Express.js, React, Node.js).
- Implemented REST APIs and integrated front-end with back-end services.
- Gained hands-on experience with user authentication, CRUD operations, and deployment of web apps.
- Worked in an agile environment, delivering functional features under tight deadlines.

PROJECTS

Clickify — Digital Marketing Agency Website | [WordPress](#), [Custom PHP Theme](#), [SEO](#) [LIVE](#) Jan 2026

- Developed a fully custom WordPress theme from scratch using PHP, HTML/CSS, and JavaScript — no page-builder dependency.
- Built service pages, a blog system, and lead generation contact forms with server-side form handling.
- Optimised on-page SEO including meta tags, canonical URLs, schema markup, and site performance for better search rankings.

- Configured and deployed the live production site with full mobile responsiveness and cross-browser compatibility.

Dentify — Dental Clinic CMS Platform | *Next.js, Supabase, Prisma, PostgreSQL* [Live](#) 2025

- Built a full-stack dental clinic management platform with a headless CMS for managing appointments, services, and content.
- Designed a relational database schema using Prisma ORM with PostgreSQL hosted on Supabase.
- Implemented server-side rendering and static generation with Next.js for fast page loads and strong SEO performance.
- Delivered a content management interface enabling clinic staff to update website content without writing code.

SAT Exam Portal — Custom WordPress Plugin | *WordPress, PHP, Elementor* [Live](#) Apr 2026

- Built a custom WordPress plugin to deliver SAT practice questions with dynamic question rendering and interactive UI.
- Developed a modular plugin architecture with custom post types, shortcodes, and admin settings for easy content management.
- Deployed and tested on a live Hostinger environment with real SAT practice content.

Digital Marketing Full-Stack Website | *MERN Stack, Tailwind CSS, Nodemailer* Jan 2025

- Developed a full-stack digital marketing website with a dedicated admin panel to manage blogs, services, and contact submissions.
- Implemented CRUD operations using Express and MongoDB for dynamic, database-driven content management.
- Integrated Nodemailer to automate client communication and send confirmation emails on form submissions.
- Built a responsive, modern UI using React and Tailwind CSS with a focus on accessibility and user experience.

E-Commerce REST API | *Node.js, Express.js, MongoDB, Mongoose* Nov 2024

- Designed and developed a RESTful API for full product inventory management — creation, updates, listing, and deletion.
- Implemented a modular MVC architecture with separate models, controllers, and routes for maintainability and scalability.
- Utilised Mongoose ORM for efficient schema validation and database operations; thoroughly tested all endpoints via Postman.

Real-Time Chat Application | *Node.js, Express.js, Socket.IO, MongoDB* Nov 2024

- Built a real-time chat app enabling users to join chat rooms and exchange instant messages using Socket.IO.
- Integrated MongoDB for persistent storage and retrieval of full chat history across sessions.
- Implemented a responsive, intuitive UI with live dynamic updates for a seamless messaging experience.
